SUMMARY

Frontend Developer with hands-on experience building modern, scalable, user-focused web applications using React.js, Next.js, TypeScript, Tailwind CSS, and Framer Motion. Skilled in responsive interfaces, reusable component systems, interactive animation, and high-performance frontend architecture.

Experienced working in collaborative environments through internships, freelance projects, and real-world product development, with a strong grounding in SPA architecture, REST API integration, responsive design, and frontend optimization. Recent work extends into React Native mobile apps and full-stack builds with Supabase and Paystack.

Currently expanding expertise through professional frontend training at FlexiSAF, alongside soft-skills development in productivity, collaboration, communication, and emotional intelligence — passionate about clean, maintainable code and shipping products that solve real problems across frontend, mobile, and blockchain ecosystems.

TECHNICAL SKILLS

Frontend

HTML5 · CSS3 · JavaScript (ES6+) · TypeScript · React.js · Next.js · Tailwind CSS · Framer Motion

Blockchain

Solidity · Web3 Frontend Integration · NFT Marketplace Interfaces

Mobile

React Native · Expo · NativeWind

UI / UX & Architecture

Responsive Design · Mobile-First Development · SPA Architecture · Component-Based Design · Accessibility (a11y) · Animation Systems

Development Practices

Reusable Components · Code Refactoring · Debugging · State Management · Performance Optimization

APIs & Data Handling

REST API Integration · Client-Side Data Management · Local Storage · JSON · Paystack

Tools & Workflow

Git · GitHub · VS Code · Figma · Agile / Scrum · Vercel · Netlify · Supabase

Also: Cross-Browser Compatibility, SEO Basics, Testing & Debugging, UI Consistency, Deployment Workflows

PROFESSIONAL EXPERIENCE

Frontend Developer (Internship) — FlexiSAF 2022 – Present

- Contributed to user-friendly, scalable frontend applications using React.js, TypeScript, and Tailwind CSS
- Collaborated with engineers and product teams in a fast-paced development environment
- Built responsive UI components, improving usability across devices
- Participated in architecture discussions, debugging, and feature implementation

Frontend Developer — Freelance / Remote 2025 – Present

- Build modern, responsive, animated web applications using React.js, TypeScript, Tailwind CSS, and Framer Motion
- Translate UI/UX concepts into scalable, maintainable frontend systems with reusable components
- Integrate frontend applications with REST APIs and dynamic client-side data
- Deploy production-ready projects on Vercel and Netlify, collaborating directly with clients

Frontend Developer (Internship) — HNG Internship 2024 – 2025

- Completed an intensive frontend engineering internship focused on real-world application development
- Built production-ready frontend projects using modern JavaScript tooling in fast-paced, task-driven sprints
- Sharpened debugging and frontend optimization skills through practical, team-based tasks

Frontend Developer (Internship) — Chaindustry 2023 – Present

- Built responsive interfaces and interactive user experiences for real-world frontend projects
- Contributed to UI consistency and design implementation within a collaborative team environment

SELECTED PROJECTS

GetGigs — Service Marketplace Live ↗

Location-based marketplace connecting verified local service providers with customers.

- Built a full Postgres schema with row-level security and an 8-step provider onboarding flow
- Implemented category browsing, provider search, and public profiles with React and Supabase

Dali Stores — Storefront Rebuild Live ↗

A separate, full-featured Dali Wears storefront rebuild with checkout and an admin dashboard.

- Built a Next.js storefront with catalog, cart, wishlist, and Paystack checkout
- Built an admin dashboard for products, orders, messages, and store settings

Dali Wears — E-Commerce Fashion UI Live ↗

Modern storefront interface for a clothing brand.

- Built product listings, category filters, and navigation with reusable card components
- Delivered a responsive grid system with strong mobile usability

City De Fitness Live ↗

Premium fitness platform with live virtual coaching.

- Built animated, responsive interfaces with React.js, TypeScript, and Framer Motion
- Integrated JaaS/WebRTC video conferencing for live training sessions

PetPi — Pet Marketplace Live ↗

Marketplace for pets, supplies, and care products.

- Built the React/TypeScript frontend for browsing, wishlists, and seller contact
- Implemented Supabase auth and a role-based admin dashboard for listings

Homemedy — Real Estate Marketplace Live ↗

Marketplace for buying, selling, and discovering property.

- Built responsive property search, detail pages, and wishlist flows
- Implemented Supabase auth and an admin dashboard for listings and inquiries

NFT Marketplace Live ↗

Decentralized marketplace with smart contract integration.

- Built a wallet-connected React/TypeScript frontend for minting and auctions
- Integrated three Solidity contracts via Ethers.js and Wagmi

ATS Pro — Resume & ATS Checker Live ↗

Frontend tool that scores resumes against job descriptions.

- Built a client-side resume parser and ATS-style keyword match scoring
- Designed a keyword gap-analysis UI with actionable suggestions

Additional projects: GetGigs — Mobile App — React Native companion app sharing the GetGigs Supabase backend (React Native, Expo, Supabase) · Dali Wears — Mobile App — React Native companion app for the Dali Wears website (React Native, Expo, Supabase) · ApplyNow Admission Portal — multi-step application form & admin review dashboard (React, JSON Server, React Router) · NextVest — blockchain investment dashboard (React, Solidity, Supabase) · WhatsApp Bot — animated chat UI with AI-ready architecture (React, TypeScript) · Smart Invoice — invoice builder with PDF export (Next.js) · ClientPilot — client management dashboard (React, TypeScript)

EDUCATION & CERTIFICATIONS

University of Uyo

Uyo, Nigeria

Distinction Soft Skills Program

Productivity, Collaboration, Problem Solving, Communication, Emotional Intelligence for Tech Professionals

FlexiSAF Frontend Development Training

Abuja, Nigeria — in progress
